

Thanks for Sharing

D+AS covered Precoat Metals' cyberattack experience in our summer 2021 cover story. This feature was based on a presentation that Precoat's Vice President of Business Information Systems, Rick Miller, provided at the 2021 National Coil Coaters Association's Annual Virtual Meeting.

Here are some sample comments from the post-meeting evaluation forms:

"Rick Miller and Precoat went through the war. They were fortunate to find the resources to deal with this in a timely fashion."

"Very honorable that they shared this difficult situation with us. Grateful for their insight!"

"Very inspiring that Precoat was willing to share their experience in such a difficult situation."

"By far my favorite session! Very informative and relevant. Thanks to Precoat for sharing their story."

"This was an incredibly compelling presentation which provided useful tools for avoiding the same fate."

"Excellent topic for such an appropriate time!"

Letters to the Editor

"Expertly written"

"I loved the summer cover story article, 'No One is Safe from Cybercriminals,' written by Vicki Jones. I read it three times because it was so good. I thought the story was expertly written and that the information about ransomware attacks was important for anyone and everyone."

Mark Petersen, Cybersafe Solutions

"Excellent report"

"I thought the 'Two Decades of Expo in Review' article in the summer issue was an excellent report featuring a comprehensive overview. The story did a wonderful job of capturing our industry event through the years. The article can serve as a platform to help shape the future of educational workshops and the Expo so that it continues to be an event that brings the industry together."

Michel Gendreau, Garaga
