

FROM THE PAGES OF HISTORY

TIMELINE

1993

Nice is founded by Lauro Buoro. The Italian multinational company enters the home automation sector offering electronic products, remote controls, and safety accessories for gates and doors.

1995

Nice adds electromechanical products to its electronic portfolio. The company also opens its first branch in France.

2000

After the takeover of another Italian company, Nice adds awnings, rolling shutters, and solar shades to its automation product line.

2003

Nice strengthens its distribution network and enters the DIY market with “NiceHome” product line.

2006

The company is listed in the STAR segment on the Italian Stock Exchange, Borsa Italiana S.p.A.

2008

Nice begins production of wireless alarm systems and establishes a key presence in North America by focusing on solar-powered automated gate systems.

2009

Nice adds centralized command features to home automation alarm systems for gates, garage doors, road barriers, solar shades, alarm systems, and lights.

2011

Through a series of acquisitions, Nice establishes automation system manufacturing centers and strengthens its drives and controls business for smart buildings in Germany.

Nice strengthens its role in the gate and door automation systems in Brazil.

2014

Nice receives the “Idea Brasil” award for the design of the Evo transmitter.

2015

Nice creates the “TheNicePlace,” a 3,000 sq.-ft. social hub next to its headquarters in Italy.

The company enters the South African market in the gate and door automation sector.

2016

Nice acquires HySecurity, a leading gate operator manufacturer headquartered in Seattle, Washington, and enters the high-security automation for gates and access systems sector.

Nice receives the “Most Innovative Product” award at the R+T Exhibition Show in Shanghai, China, the “Prêmio Objeto Brasil” award, and the “Security Industry Award” at the ISC-West show.

2018

Nice enters the access control market in South America.

Nice acquires Abode and FIBARO, entering the smart home sector.

2019

Nice purchases Micanan, a manufacturer of commercial and industrial garage door openers in Montreal, Quebec.

2021

Nice acquires Nortek Security & Control, a leading developer of technology for security, home automation, control, power, audio-visual and entertainment, access control, health, and artificial intelligence systems for residential and commercial markets, from Melrose Industries.

Executives from Nice and Fibaro working Nice’s acquisition of Fibaro.

“TheNicePlace,” which is a company training and social center adjacent to the HQ
